Chesapeake and Ohio Doubles Number of Ships.

UNITED STATES SHIPPING CO.

The Recent Combination of Railroads Will Give an Immense Impetus to the Export Trade from the City.

(Special Dispatch to The Times.) NEWPORT NEWS, VA., Oct. 23.-The

Chesapeake and Ohio Steamship Company is negotiating for the charter of six new ships, some of which, it is said, have already been secured. Three of these will go into the Liverpool trade; three will go into the London trade, exactly doubling the number of vessels now operated by the

company to these two ports.

The United States Shaping Company is now running two ships regularly to Hamburg. The number will be trebled as soon as four additional vessels can be characteristic.

The enormous impetus that will be given to the export and import business here by this increase in regular shipping can read-

ily be imagined. The increase is partly due, perhaps, to the recent combination between the Ches-apeake and Ohio, the Southern and the Norfolk and Western railways. Into this combination, it may be authoritatively stated, the Seaboard Air Line and all other railroads entering Norfolk and Portsmouth have entered. The Scaboard Air Line was a disturbing element, but with the road in combination, the agreement will probably

A few minutes before 9 o'clock Mr. Bryan was driven to the Baltimore and Ohlo depot, where he made a brief speech from his automobile. He spoke on im-perialism and civil service. About 5,000 people were massed about the depot. Mr. Bryan said: "Occasionally I hear it suggested that

persons engaged in the civil service who are opposed to imperialism will vote the Republican ticket for fear of losing their positions with the Government. Cer-tainly there are not many who would pre-fer government employment under an empire to whatever risk might attend their empire to whatever risk might attend their employment under a republic. I am not much of an admirer of that civil service which is suspended when a President is inaugurated until he can fill the offices with his friends and is extended by the President when he is about to retire, in order that he may protect his friends in office. I believe that a system of civil service might be devised wherein appointments would be made upon merit and wherein the appointes would hold for a fixed term and not be dependent upon the will of an appointing officer. The industrial despotism now inaugurated by the trial despotism now inaugurated by the Republican party is closing the door of op-portunity against the young man and driv-ing many to seek government employ-ment who under better conditions would

be employed in producing industries."
Mr. Bryan closed with the statement
that it was not his highest ambition to be
President, "but to make this Government."

MANASSAS, VA., Oct. 23.—Hon. William J. Bryan passed through here this morning on his private car "Rambler" attached to the Chesapeake and Ohio north-bound train, due here at 6 A. M., but running one hour late. The chairman of the Democratic County Committee, Mr. J. B. T. Thornton, had telegraphed Mr. Bryan requesting him to make a short speech from the platform of his car. In anticipation a large crowd had assembled at the depot, many ladles being present, hoping to hear something from the great Democratic leader. His secretary, however, telegraphed from Orange that Mr. Bryan was taking much-needed rest and was sleeping at that time. Knowing that the train was late, and that it often stopped here for water, the anxious crowd waited, still in hopes. The train, however, did not stop, nor was Mr. Bryan on the platform.

Several young men occupying a position on a level with the car windows gave cheers which aroused the immates of the Lambler" and Mr. Bryan draw side the curtain, raised his head and looked out on the assembled throng. TRANSFERS ARRANGED. Representatives of the Two Car Lines

Decide on Points, Representatives of the Richmond Traction Company, and the Richmond Passenger and Power Company hed a concerence yesterday in the offices of Mr. E. R. Williams, State Bank Building, relative to the transfer question, and, after many discensions, agreed that transfers should be issued by one company

to another at nine convenient points.

The transfer points agreed on at the conference are as follows:

Harrison and Broad, Laurel and Broad. Seventh and Broad, Eighth and Broad, Ninth and Broad, Seventeenth and Broad, Twenty-hirst and Broad, Twenty-ninth and Broad, First and Main.

Under the tentative agreement the com-pany receiving the transferred passenger can or cannot carry the passenger to the terminus of its line, but it is understood that the Passenger and Power Company will not carry passengers on transfers beyond the city limits save to the New

NORWICH, N. Y., October 23,-Gov-

rnor Roosevelt finished the second day of

his New York State campaign in Norwich to-night, speaking to a large audience. He traveled to-day 150 miles and made fourteen speeches, yet he finished his day's work in splendid shape, his voice at the might meeting being very clear.

The entire trip to-day was an ovation, the crowds in comparison to the population of the places being especially large.

The three largest places stopped at were

Stamford, where he spoke in a hall; One-taka, where he addressed an outdoor meeting, and at Bloomville, where he said:
"I want to call your attention to a little incident that occurred last night in New York. I think you can sometimes know a man by the company he known a man by the company he known. a man by the company he keeps. You can sometimes tell something about a candidate by the people who are his most active supporters. There was a Bryan meeting last night in New York, in Cooper Union, I think. At that meeting the morning papers report that the two people who were most enthusiastically cheered were Agulinaido, of the Philippines, and Aligeld, of Illinois. I think it was entirely control to the control of the people was a superior of the control of the control

proper to cheer one if you cheer the other. TEDDY GOT MAD. "It was entirely appropriate to cheer the man who harbored the Amarchists in this county and the man who has been striking at our soldiers at the other side of the

Voice—"They can't answer."
"Phat's it; because Mr. Bryan has announced Mr. Croker is the prophet of Tammany Hall and the State is why they hurran for Bryan. Again, why hurran for Bryan? Why, for the forty-live cent dollar, for the prospect of cutting into the nation's debt by a simple process of cutting in two the nation's honor. Is that a good reason for saying hurran for Bryan, hurran for Bryan? Why don't you hurran for Aguinaldo? You will give the greatest possible comfort to every malay bandit who is shooting at the flag if you help or aid the Bryanizet bemogracy in any way. I make a distinction between the Bryanized Democracy and the Democracy of Jackson."

Vest Pocket Cigar Lighter.

Many a match might be saved by smokers if they were provided with the ingenious apparatus recently patented by George Wood, of Brighton, England, as illustrated herewith. The exterior casing is similar to a watch in size and conferentian and is even provided with casing is similar to a watch in size and conformation, and is even provided with a stem-winding post, which, however, serves a different purpose from that of a watch. Inside the case is a train of three wheels, on of which is mounted on the shift which carries the exterior stem. The last wheel in the train rotates a strain emery wheel at a rapid rate.

In the bottom of the casing is a steel plate, which a held arainst the emery wheel by a spring. As the wheel revolves against the steel sparks are through the opening in the case to the lining of tinder placed in the lid. As the tinder glows the cigar is presented, VICKSBURG, MISS., Oct. 23.—Gloucester Barnes (colored) was lynched by a mob of his own people in the northern part of this county last night.
